

64x64
CTU

The diagram illustrates the hierarchical structure of video coding blocks. On the left, a large blue square represents a 64x64 CTU. Two lines extend from its top-right and bottom-right corners to the top-left and bottom-left corners of a larger structure on the right. This structure consists of a top blue square (64x64 Luma CTB) and two bottom blue squares (32x32 Chroma CTBs) side-by-side, all enclosed within a larger white rectangular frame.
